New Accessories

INT412 Radio Transmitter Set

New

This "AAA" battery operated radio transmitter and receiver set will operate flash units up to a distance of 50 metres (150ft) from the camera. Four independent channels can allow different combinations of flash heads to be fired.

The transmitter is mounted in the camera's Hotshoe whilst the receiver is connected to the flash head via a sync lead.

Complete Transmitter & Receiver kit with Sync leads and clips to enable the receiver to be attached to a light stand

Available late Autumn 2005
